

Disney Cancer Center Garden

Spanning the entire length of the meditation garden, an installation of exterior water features include a 6 ft. diameter spiral pool, four individual runnels, a water wall, and a reflecting pool. The entry water feature consists of a two-level reflecting pool with natural boulders and basalt fountain. Not only do these water features enhance and beautify this outdoor space; the project was approved by the City of Burbank, California as part of their public art collection.

Type

Circular pools, trough, water wall, and reflecting pool

Materials

basalt, stainless steel, granite
