

Newport Bay Towers

The water veils at Newport Bay Towers are two of the tallest ever built for outdoors. The taller veil near the swimming pool is over 45 ft. tall. The 35 ft. tall veil in the central courtyard also features a mosaic tiled fountain pool with multiple water nozzles and a split basalt fountain in three sections. Powerful LED lights from DDP/Emerge were utilized to illuminate the Water Veils at night.

Type

45 ft. tall Water Veils in pools

Materials

stainless steel

Location

Newport Beach, CA
