

RH Modern Waterwall

The impressive textured stone water wall situated at the Restoration Hardware's outlet, RH Modern in Beverly Hills is the main attraction and focal point of the outdoor lounge space. More than 500 gallons of water cascades down the 16 ft. tall textured stone wall, generating the mesmerizing white water effect that can be viewed from the street. We created a water feature that was worthy of the upscale design location, and that merges effortlessly with the sleek furniture that's showcased.
