

Casa Mira View

Water cascades down the vast 25 ft. and 15 ft. curved bronze patina finish water veil towers. As water falls from the sculptural towers it enters the large 12 ft. circular basin below with under water lighting. Fire emits from the side of the structure of the largest tower illuminating the nights sky.

Type

Sculptural towers with bronze patina finish a fire / water feature

Materials

copper, stainless steel, concrete, polished river rocks, basin lighting

Location

San Diego, CA
