

Long Beach Water Veil

A low-height Water Veil framed in copper with bronze patina stands on the patio of an oceanfront home in Long Beach, California. Translucent water textures cascade down the stainless steel screen and into a granite-clad infinity edge pool that continually overflows in to a narrow gap in the finished floor. The Water Veil enhances the outdoor living area without disrupting the ocean view and provides a relaxing water movement with light and sound of falling water.

TYPE
Framed Water Veil

MATERIALS
Stainless steel, copper

LOCATION
Long Beach, CA
