

Butterfly Peak Water Veils

Three mesmerizing Water Veils accent a courtyard in a contemporary private residence in The Vintage Club, located in Indian Wells, CA. Standing 14 ft. tall, the frameless Water Veils fall from a slot in the ceiling into a courtyard pond, seamlessly clinging to the surface without a splash. Water effortlessly cascades down the stainless steel mesh screens, creating captivating waves that add a soothing ambiance to the modern courtyard. Translucent and clean, the veils compliment the geometric landscape and clean lines of the house.
