

## Jean-Georges Beverly Hills

Situated in the elegant lounge area of the new Jean-Georges restaurant in Beverly Hills, CA, this water feature is the focal point of this relaxing space. The water feature evokes a family of sculptures, with six different and complimentary water sculptures, combined create soothing sights and sounds of moving water. The water effortlessly flows into a dark pool with five bubbling nozzles and underwater lighting. The water sculpture is made of copper with a bronze patina finish, allowing it to compliment several other Water Studio water features within the new Waldorf Astoria Hotel in Beverly Hills.
