

## Laguna Beach Residence

Situated on the water in Laguna Beach, CA, this recessed stone water wall is 12 ft. wide by 8 ft. tall as it sits overlooking the patio and pool area on this private property. Constructed from rich textured copper and bronze patina, this statement water feature adds a warm organic element to its location, while integrating perfectly into the architectural design of the residence. The water feature mirrors its beach setting with waves of water flowing down the chiseled-cut basalt wall into a stone-clad basin.

### Type

Recessed water wall in private courtyard
