

La Jolla Patio

This dramatic fire and water feature in La Jolla, CA makes a welcoming focal point for a stylish private patio. The slightly curved water wall acts as a mirror against the flames that jut up from the base. Built of stainless steel, black river rocks, and wood, the feature incorporates natural materials, with a subtle rounded design, which emphasize the organic qualities of the fire and water elements.

TYPE
Exterior Water/Fire Feature

MATERIALS
Stainless steel, beach pebbles
