

## Disney Cancer Center Wall

This palatial granite water wall and its accompanying reflection pool spans the entire length of the Disney Cancer Center's meditation garden. Its design produces a strong, and supportive framework for the serene courtyard, anchoring the space while creating a protective and gentle atmosphere. Completing the overall feel are lights that illuminate the granite waterfall, enabling the depth and texture of the feature to be showcased. The solid multi-colored stone retaining wall becomes the finishing touch, grounding the work, enhancing a sense of stability and fortitude.
