

Landmark II Tower

This significant bowl feature marks the grand motor court entrance of luxury condominiums The Landmark II Los Angeles in Brentwood, CA. The cast concrete bowl measures 18 ft. long by 15 ft. wide and weighs approximately 27,000 lbs. Water flows from the bowl's center and pours over the north and south ends to create dramatic 5 ft. wide by 3 ft. tall glass-like water sheets. Underwater LED lights illuminate this impressive cascading water effect from below.
