

Curved White Water Wall

The initial focal point upon approaching this remarkable private estate in Los Angeles is our monumental, curved water wall. This meticulously designed water feature is intended for close encounters, beckoning observers to step up onto a central platform and stand before the cascading white water waves. Spanning an impressive 27 ft. in length and soaring to a height of 16 ft., this water feature offers a breathtaking welcome to both residents and visitors of this truly unique property.
