

Bel Air Courtyard Rivulet Podiums

Six copper podiums, spanning 34 ft. across an elegant interior courtyard, serve as the centerpiece of a contemporary Bel Air, CA estate. Water cascades gracefully down the smooth copper surfaces with a rich dark bronze patina, into a recessed basin lined with polished beach pebbles. Integrated brass spouts add dynamic alternating rivulets of water along the inner sides. Underwater lighting highlights the gentle waves, casting a soft, radiant glow that transforms the space into a tranquil sanctuary.
